

The ÜLKA Handy tabletop dust collector

Is a new powerful baby to guard the health of the nail artist.

- **A reasonable price**
 - **High power**
(the dust collector absorbs dust from a height of up to 20 cm, even during a pedicure!)
 - **Low noise level**
 - **Built-in hand rest**
 - **5-year warranty!**
- With minimal energy consumption, you get a lot of power and 99.9% absorption of nail dust.
 - The dust collector's body is made of impact-resistant high-quality plastic, which is easy to clean from any dirt. The dust collector is easy to turn on by pressing just 1 button.
 - The filter is in front of the fan, so the dust collector does not blow out dust (which can happen with bags).
 - The ULKA Handy has all the quality certificates, including a European laboratory test and a CE certificate.

Power
30 W
