

ÜLKA

The new ÜLKA NANO dust collector: Efficiency and innovation in your workplace

ÜLKA BEE has been renewed and given a second wind and is ready to present itself to you with nanotechnology under a new name - **ÜLKA NANO!**

The new model retains the best of the BEE dust collector - a laconic design, compactness, lightness and quiet operation. It has also been upgraded with the newest technologies - **the fans have become even more powerful** and it is officially **the most powerful dust collector from ÜLKA** today. At the same time, we managed to keep the **height of the dust collector at only 7.6 cm!** We have been looking for these nano fans for a long time!

Also, our dust collector can now be used to charge mobile phones - you are improving the service for your customers.

Product weight:

1.2 kg

Dimensions:

18x29x7.6 cm

Noise level:

85 dB

Power:

58 W

Supply voltage (V) and frequency (Hz)

220/50 and 110B

Current strength:

0.26 A

Engine speed:

4800+10%

Suction speed:

3.5 m/s

The main advantages of the ÜLKA NANO dust collector:

- **2 super-powerful fans** to absorb all the dust from the work area and save the nail technician's lungs.
- **Charging ports**, now you can charge mobile devices directly from the dust collector (we have provided both Type-C and USB formats). *Dust collectors may have different connectors: they may have 2 Type-C, 2 USB, or a combination of Type-C and USB. Please check the specifications of your dust collector to see which connectors are available.* This feature adds convenience to the work, as nail specialists no longer need to look for additional power sources for their gadgets, ensuring uninterrupted operation and access to all the necessary tools in one place.
- Compact and ergonomic: it is **the lowest and lightest** dust collector on the market with such a high power output
- Effective air purification: actively **eliminates dust and allergens**, maintaining a high level of hygiene in the workplace.
- Easy maintenance - the filter is very easy and quick to clean or replace; 2 filters and a dusting brush are already **included in the kit!**
- Modern design - we **are the only ones to offer 3 body colors to choose** from (black, white, gray), a stylish grille - the dust collector fits perfectly into any workplace.

These features make the ÜLKA NANO dust collector an ideal choice for professional salons and studios that value quality, convenience and cleanliness.
